

WHAT IS CLAIMED IS:

1. An *in vivo* indigestible peptide having Pro at a carboxyl terminal, selected from the group consisting of Ile-Pro, Glu-Pro, Arg-Pro, Gln-Pro, Met-Pro, and Ser-Pro-Pro.

5

2. An angiotensin converting enzyme inhibitor comprising as an active ingredient *in vivo* indigestible peptides having Pro at carboxyl terminals, consisting at least one of Ile-Pro, Glu-Pro, Arg-Pro, Gln-Pro, Met-Pro, and Ser-Pro-Pro, or
10 a salt thereof.

3. Medicine having hypotensive effect comprising an angiotensin converting enzyme inhibitor of claim 2.

15 4. Functional food having hypotensive effect comprising an angiotensin converting enzyme inhibitor of claim 2.
